

## High Performance Formulary

*An evidence-based pharmacy formulary that works for you*

For medications not listed, Moda Health provides an online drug price check tool for members. You can access this resource by logging in to your myModa account at [modahealth.com](http://modahealth.com) and choosing the Pharmacy tab.

### What is the High Performance Formulary?

The High Performance Formulary is a pharmacy program that offers a choice of medications that are safe and effective treatments. The program provides value to Moda Health members by saving them money on prescription medications.

### How does the program work?

This program uses a tiered copay/coinsurance system. Members and their doctors can choose between the value tier, select tier, and preferred tier. Each tier has a different copay/coinsurance amount and what you pay depends on your plan. Refer to your Member Handbook or call Moda Health for plan details or specific medication tier information.

### Who makes decisions about medications on the prescription drug list?

The list is developed and maintained by a group of doctors and pharmacists called the Pharmacy and Therapeutics Committee. These doctors and pharmacists are not employed by Moda, but may see patients who have Moda coverage. The Committee makes decisions based on information about a medication's safety, effectiveness and associated clinical outcomes.

**Search Tip:**

This is a large document, but you can search quickly and easily by clicking on the binocular icon on your toolbar or using the CTRL+F search function from your keyboard. It will then display a search box for you to type in the name of the drug you want to locate. If you do not know the correct spelling, you can start your search by entering just the first few letters of the name.
