

# Idaho Group Size Attestation Form

In order to determine the group size of your organization, please complete this form and attest to its accuracy.

In the case of an employer that was not in existence throughout the preceding calendar year, the determination of whether the employer is a small employer is based on the average number of employees the employer is reasonably expected to employ on business days in the current calendar year.

## DEFINITIONS

**Small employer** means an employer who employed an average of at least 2 but not more than 50 employees on business days during the preceding calendar year and who employs at least 2 but no more than 50 employees on the first day of the plan year with the majority employed within the state of Idaho.

**Large employer** means an employer who employed an average of at least 51 employees on business days during the preceding calendar year and majority of whom were employed within the state of Idaho.

**Employee** means any individual who works on a full-time basis and has a normal work week of 20 to 30 hours per week. This term includes an owner, a partner in a partnership or an independent contractor if they are included as employees.

**Controlled group** means a controlled or affiliated group of employers treated as a single employer under subsection (b), (c), (m), or (o) of section 414 of the Internal Revenue Code of 1986.

If a controlled group is determined as a large employer, each affiliated employer is part of the large employer even if separately the employer would not meet the definition of a large employer. Therefore, each affiliated employer is considered a large group for the purposes of group size determination.

## PLEASE ATTEST TO THE FOLLOWING:
