

November 1, 2015

Dear Healthcare Professional,

As you are aware, Moda Health has partnered with Magellan Rx Management (Magellan Rx) to assist you in medical pharmacy management through the provider administered injectable drug program. We are committed to providing our members with access to high-quality healthcare. To ensure our members receive quality and affordability care, we will implement updates to the review and approval processes of certain injectable medications.

Effective January 1, 2016, 21 new medications will be added to the prior authorization list of medications currently in the Magellan Rx program.

Magellan Rx will review your prior authorization requests for the following specialty injectable medications, along with other specialty medications that are already part of the program when administered in:

- an outpatient facility
- a patient's home
- a physician's office

Brand name	Generic name	HCPCS code	Unclassified code
BENLYSTA	Belimumab	J0490	
Botox	OnabotulinumtoxinA	J0585

Cyramza	ramucirumab	C9025	J9999 (NDC Preferred)

Completing prior authorization requests through Magellan Rx will help expedite claims processing and doesn't require you to submit medical records. If you don't obtain a prior authorization, your claims may be delayed or denied until we receive the information needed to establish medical necessity.

To learn more about our injectable drug program, please check out our updated Injectable Drug Program FAQ at modahealth.com/pdfs/faq_injectables.pdf. We also encourage you to sign up for one of our upcoming training webinars (conducted by Magellan Rx) to understand our new procedures and help process your claims faster and accurately.

Sign up for webinar training today!

Join us for an online training session to acquaint yourself and your staff with these procedures that go into effect **January 1, 2016**.
