# Diversity, Equity and Inclusion survey

- Diversity: We value, respect and celebrate people of all backgrounds, identities and abilities. And we actively seek to identify how uniqueness makes us better.
- Equity: We strive to understand the underlying causes of outcome disparities and actively work to increase justice and fairness in our processes, procedures and systems. We do this within our company and within our communities.
- Inclusion: We are committed to creating environments where every individual has an equal opportunity to belong and can be recognized for their inherent worth and dignity.

# Diversity, Equity and Inclusion survey

Currently, diversity among physicians is limited. Mounting evidence suggests when physicians and patients share the same race or ethnicity, it improves:

- Time spent together
- Shared decision-making
- Wait times for treatment
- Screening adherence
- Patient understanding of health risks
- Patient perceptions
- Treatment decisions

We invite you to share your demographic information with us.

### Referral and authorization guidelines

To help you understand what services need prior authorization, are always not covered or not medically necessary, we're updating our prior authorization lists.

The following lists cover our lines of business. Because some services are considered investigational, cosmetic, or always not medically necessary, we are including a separate list of the services that are always not covered.

Effective January 1, 2017 for all in-network individual, ASO, small, and large group plans, Moda will deny services if required prior authorization is not obtained prior to rendering the service. If a prior authorization is not obtained for in-network services, Moda will deny charges as provider responsibility.
